Agenda:

Discussion and approval of work programs of academic disciplinesHead of the Department of General Hygiene, Candidate of Medical Sciences, Associate Professor Sultashev A.Zh. presented the work program of the elective course "Green Technologies in Medicine" for 3rd year students of the Faculty of General Medicine. In a total volume of 2 credits (60 hours), of which 10 hours are lectures, 20 hours are practical classes, 30 hours are independent work (SRS). Form of control – pass/fail. This program was compiled by the staff of the Department of General Hygiene: Head of the Department, Candidate of Medical Sciences, Associate Professor Dzhorbaeva A.A. and Associate Professor of the Department Sultashev A.Zh. The purpose of the elective is the role of technology in creating a sustainable future and

the implementation of knowledge of green technologies in their professional activities. Upon completion of the course, students will possess fundamental knowledge of green technologies and be able to apply them in practical situations to solve modern environmental problems. The program was reviewed by Associate Professor of the Department of Management of Scientific Research of KSMA named after I.K. Akhunbaev, Candidate of Medical Sciences Kudayarova M.Zh. and Deputy Director of the DDP and SESN, Candidate of Medical Sciences Shamsutdin. An extract from the departmental meeting is attached.

Resolved:

To approve the work program of the elective course "Green Technologies in Medicine" for 3rd year students of the Faculty of General Medicine and recommend it for approval at the CEMC of KSMA named after I.K. Akhunbaev.
